

Wagner Equipment Company

Serving Indiana since 1957

Wagner Equipment is a full service manufacturers' representative firm providing engineering and sales representation. We specialize in commercial and industrial HVAC design build and custom application projects that require unique solutions.

The following is a list of the many vendors we support. We have access to a wide array of products and manufacturers to find the right solution to your project.

Replacement Parts

Wagner Equipment Company, Inc: Replacement parts on WECL equipment such as compressors, discharge air sensors, amplifiers, ignition control boards, tube bundles, ignitors, flame rods, variable frequency drives, cooling tower fill media, supply fans, motors, steam humidifier canisters, and humidifier heating elements. Reach out for more information.

Industrial Make Up Air, Heating, Cooling, and Air Rotation

Climate By Design International: Horizontal direct and indirect critical process air handlers for indoor and outdoor applications.

ICE Western: Indirect and direct fired 100% and 80/20 MUA units in vertical and horizontal configurations for indoor or outdoor applications; Air Rotation Units, multi-zone units.

Hastings HVAC: Indirect and direct fired 100% and 80/20 MUA units in vertical and horizontal configurations for indoor or outdoor applications; Air Rotation Units, multi-zone units.

CaptiveAir: Commercial and industrial make up air, commercial exhaust and supply fans, high volume low speed fans (HVLS).

Commercial Split Systems, Heat Pumps, and Mini-Splits

ACiQ: High-efficiency split system and packaged air handlers, heat pumps, multi or single-zone mini splits with wall mount or ceiling cassettes, PTAC units, and select sizes of commercial packaged rooftop units.

Dedicated Outside Air Units

CaptiveAire: Roof or Ground mounted "DOSAs" Units. 100% OSA. Cooling only or with gas heat high filtration.

ICE Western: Roof or ground-mounted Industrial Semi-Custom Air Handlers, 100% OSA. Fluid or Dx cooling. Fluid or gas heat.

Custom Replacement Coils

Wagner Equipment Company, Inc: Custom coil replacements, field measuring, and evaluation of the design.

Plate Heat Exchanger

Polaris: Heat exchangers, plate and frame, braze plate, double wall plate, welded plate, wide gap plate.

Data Centers and Server Rooms

ClimateWorx: Vertical floor-mounted precision air conditioning units. Wall and ceiling-mounted precision air conditioning units. In-row compact footprint precision air conditioning units.

Uniflair by Schneider Electric: Close coupled data center in row cooling units DX and chilled water.

Fan Coils

MagicAire: Fan coils, blower coils, floor console units, cased and uncased vertical and horizontal fan coils, modular air handler, cased and uncased coils, rooftop units, and unit ventilators.

Humidification

Carel: Electric and gas steam humidifiers, steam distributors, atomizing humidifiers, multi-zone compressed air atomizing humidifiers, ultrasound humidifiers, centrifugal humidifiers.

Dehumidification

Climate By Design International: Indoor and outdoor desiccant dehumidifiers.

Ebac Industrial Products: Floor, ceiling, and duct mount dehumidifiers, portable dehumidifiers, and desiccant dryers.

Air Curtains, Electric Heaters, Unit Heaters, and Fin Tube

Raywall: Electric heating products including unit heaters, convectors, wall heaters, baseboard, infrared, kick space, pump house, air curtains, duct heaters, and explosion-proof heaters.

Modine: Gas, hydronic, electric, and oil unit heaters, duct furnace, hydronic cabinet unit heaters, fin tube, and convectors, infrared heaters, make up air units, and unit ventilators.

Chillers, Fiberglass Cooling Towers, Pump Tanks, and Fluid Coolers

Thermal Care: Indoor and outdoor process chillers, pump tanks, fiberglass cooling towers, portable chillers, dry and adiabatic fluid coolers.

MultiAqua: Commercial chilled water air conditioning systems, Select sizes of portable chillers, Hydronic ducted and ductless fan coil units, flush mount ceiling cassettes, and condensate pumps.

Güntner: Dry and adiabatic fluid coolers.

ReymSA: Commercial and industrial heavy-duty seamless CTI certified fiberglass induced draft cooling towers and evaporative fluid coolers.

Process Boilers

Parker Industrial Boiler: Steel tube heating products, direct fire hot water boilers, steam boilers, condensing boilers, indirect fired HW heaters, high temperature thermal liquid heaters.

Fabric Duct, Sensors, and Accessories

FabricAir

FabricAir: Fabric duct systems made of permeable and nonpermeable fabric. Available in round and half round with a variety of materials, suspension options, discharge nozzles, and colors.

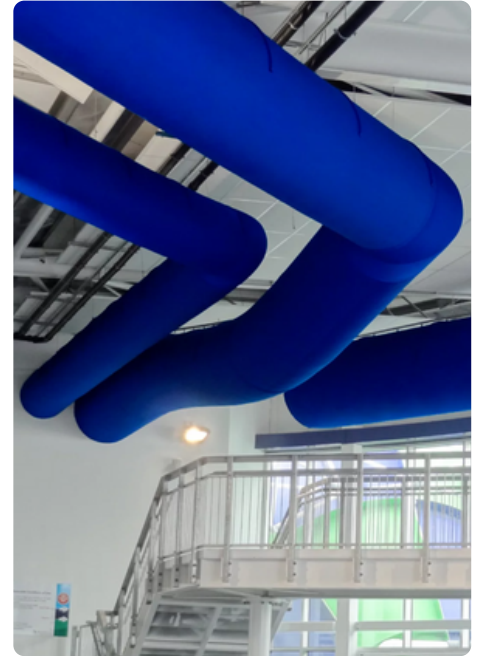

Acme Engineering Products: Gas detection systems or refrigerant, ammonia, CO, CO₂, hydrogen, hydrogen sulfide, NO₂, O₂, chlorine, and sulfur dioxide. Systems are available in stand-alone, multi-gas, multi-location, and wireless configurations.

The Pate Company: Roof curbs, equipment rails, metal building products, pipe and duct supports, pipe penetration products, seismic and vibration isolation, and hatches.

BLC Industries: Filter frames and housing, auto roll filter systems, oil and water mist eliminators, HEPA filters, and replacement filters.

All The Equipment You Need, More Service Than You Expect.
